## APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office. SEP 2 6 1988					
Returned to applicant for correction OCT 2 5 1988					
Corrected application filed					
Map filed					
The applicant Clark County Sanitation District					
5857 E. Flamingo Road of Las Vegas Street and No. or P.O. Box No. City or Town					
Nevada 89122 , hereby make sapplication for permission to appropriate the public State and Zip Code No.					
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a					
copartnership or association, give names of members.) Not Applicable (N.A.)					
1. The source of the proposed appropriation is <u>underground</u> Name of stream, lake, spring, underground or other source					
2. The amount of water applied for is up to 2.72 (4 wells at 305 gpm each) second-feet					
(a) If stored in reservoir give number of acre-feet N.A.					
3. The water to be used for lowering of groundwater table to allow for annual cleaning maintenance of wastewater lirigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.  4. If use is for:					
(a) Irrigation, state number of acres to be irrigated					
(b) Stockwater, state number and kinds of animals to be watered N.A.					
(c) Other use (describe fully under "No. 12. Remarks") See No. 12 Remarks					
(d) Power:					
(1) Horsepower developed N.A.					
(2) Point of return of water to stream At points of diversion directly into Las Vegas Wash					
5. The water is to be diverted from its source at the following points: See Attachment A  Describe as being within a 40-acre subdivision of public					
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.					
6. Place of use The southwest 1/4 of the northeast 1/4 of Section 22, Township 21 South,  Describe by legal subdivision. If on unsurveyed land, it should be so stated.					
Range 62 East, M.D.B.&M, Clark County, Nevada					
Cantamban Jot Manah 21ct					
7. Use will begin about September 1st and end about March 31st , of each year.					
3. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and					
specifications of your diversion or storage works.) Up to a maximum of eleven dewater wells.  State manner in which water is to be diverted, i.e. diversion structure, ditches and					
Pumped to lined channel, to Las Vegas Wash. flumes, drilled well with pump and motor, etc.					
9. Estimated cost of works \$ 200,000.					

11.	Estimated time required to complete the application of water to beneficial use two years			
12.	Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.			
	The dewatering will protect the structural integrity of the basins while they ar			
	being cleaned. This is a temporary groundwater withdrawal for about 7 months ea			
	year. Discharge will be by surface flow directly into Las Vegas Wash. All facilities, including wash is on Clark County/Clark County Sanitation District land. See Attachment B for estimate of annual volume of water pumped.

52572

## (PERMIT TERMS CONTINUED)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

This permit is issued subject to NRS 534.025. The State Engineer reserves the right to make a future determination if the water withdrawn under Permits 52571 and 52572 can be used for some other beneficial use.

The total combined duty of water under Permits 52571 and 52572 shall not exceed 910 acre-feet per season.

## ATTACHMENT A

Application for Permit to Appropriate the Public Waters of the State of Nevada

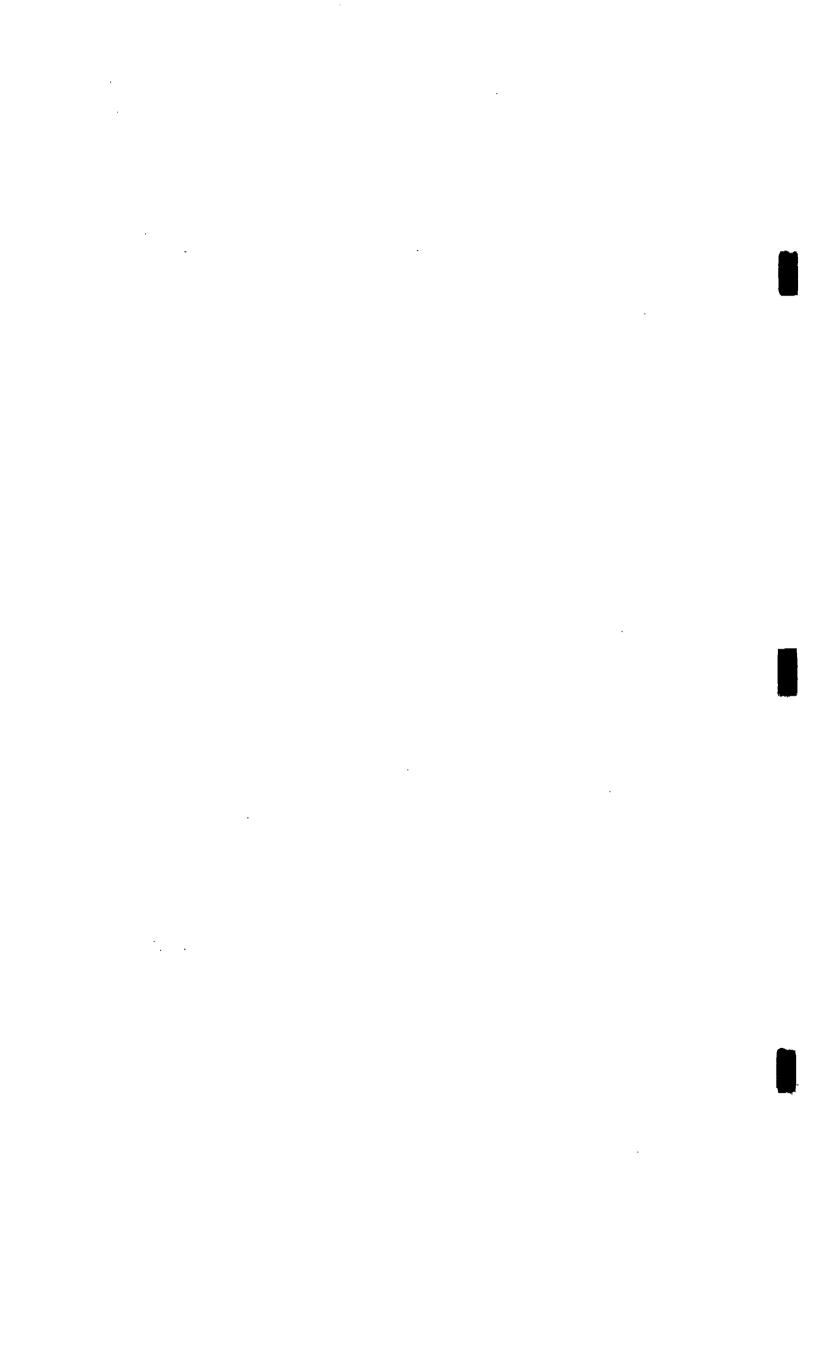

Series "A" Wells, Numbers: DW-3, DW-4, DW-5, DW-6

The water is to be diverted from its source at the following points:

From Section Corner 16-15-21-22, to:

Dewater Well Number	Bearing	Distance She 11-23-83
DW-3	S65°12'59"E	3,090.66 FEET 11-10-88
DW-4	S66°57'18"E	3,314.49 <b>FEET</b>
DW-5	S68°28'18"E	∕3,540.75 <i>F&amp;</i> ≤ <b>7</b>
DW-6	S69°48'19"E	3,769.19

all within the NWl/4 NE1/4 of Section 22, T.21S., R.62E, M.D.B.&M., Clark County, Nevada.

## ATTACHMENT B

Application for Permit to Appropriate the Public Waters of the State of Nevada.

Series "A" Wells, Numbers: DW-1 through DW-6

The following is an initial rough estimate of the annual volume of water to be discharged from the Series "A" wells. It is provided to fulfill a requirement that an estimate be given at the time of application. This Attachment B will be superseded by actual volume measurements after the wells are constructed.

Initial Volume to Lower Water Table:

Total Number of Pumping Wells = 6
(Designated DW-1 through DW-6)

Discharge Rate Per Well (gpm) = 305

Discharge Rate, All Wells (gpm) = 1,830

Discharge Volume, All Pumping
Wells (acre-ft) = 230

[1830 gpm X 4 weeks\* X 10,080 min/week X 1 acre-ft/325,892 gal]
[\*Based on empirical field data obtained by District.]
Volume to Maintain Height of Lowered Water Table:

Turn off 2 of the 6 wells.

Total Number of Pumping Wells = 4

Discharge Rate Per Well (gpm) = 305

Discharge Rate, All Wells (gpm) = 1,220\*\*

[\*\*Based on empirical field data obtained for the District by the U.S. Geological Survey, reported 1-8-87.]

Time to Dewater Each Basin, Dry Out Basin Sludge and Remove Basin Contents (weeks) =  $9\pm$ Number of Basins = 2

Total Time (weeks) = 18

Discharge Volume, All Pumping Wells (acre ft) = 680

[1,220 gpm X 18 weeks X 10,080 min/week X 1 acre-ft/325,891 gal]
Annual Volume of Water to Be Discharged From Series "A" Wells:

= 230 acre ft. + 680 acre ft. = 910 acre ft.
